

SUBROGATION RECOVERY & LEGAL SERVICES

Savings Optimization and Stabilization

- Early identification of third party liability claims resulting from precertification process
- Pre-claim intervention maximizes plan savings
- Increased reimbursements when recovery of funds is captured prior to member engagement of an attorney
- Experienced legal team data mines retrospective claims each week
- Ensures funds due to the plan by a third party are captured

INETICO ADVANTAGE:

Prospective integration of claims, coupled with prior authorization review and retrospective data mining, yields significant return on investment when early intervention is initiated by our experienced legal team.
