Dear Joseph,

iNetico has stepped into summer with you in mind. We have redesigned our newsletter so that you may quickly and easily navigate through the information that most meets your needs. Each quarter we will provide you with information regarding iNetico updates, industry information, iNetiCare's informational corner and iNetico's featured services such as PPO Administration, Negotiations and Care Management. From time to time, we will have industry specialists provide us with the latest opportunities for your business segment.

Most importantly, we want to hear from you. Give us your feedback and tell us what topics you want to hear about the most at iNetiNews@inetico.com.

After all, you are why we are here!

Sincerely,
Joseph Hodges, President

Preparing for NPI

Like many of you, iNetico is preparing to receive and transmit the National Provider Identification number, better known as *NPI*. With deadlines fast approaching, we wanted to provide you with some of the resources we are using in order to remain compliant with these new standards. We hope that you will find them useful as well.

CMS information related to NPI can be found here:

Service of the Month Negotiations

iNetico has saved one client nearly \$5 million this year alone. Our very astute and professional negotiators attempt discounts on every claim that passes through our iNetiPass system. Our electronic tools present each negotiator the best case scenario when negotiating with a provider. 100% of iNetico's negotiated claims are signed off and approved by the providers office. That means "*No Disputes*" and "*No Reversals*". We also pride ourselves in the relationships we maintain with providers as a representative of your healthplan.

Utilization of Acute Care for Chronic Illness/Diseases

Our Care Managers, in this year's second iNeticare clinical conference, noted the

anniversary of the onset of the deadly disease now known as AIDS. It was June 5, 1981, that the Centers for Disease Control and Prevention (CDC) reported five cases of a rare pneumonia...
